

Step into the world of green windows

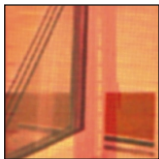

About us

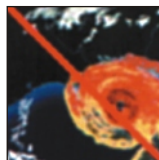

PAKSCO is engaged in manufacturing precision made UPVC windows and doors at their state-of-the-art production unit. These windows are manufactured using premium quality profiles from En Craft having European collaboration with M/s. WHS Halo.

Product Features

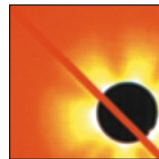

AESTHETICS

Attractive designs and colours to suit your needs.

WEATHER RESISTANT

Special Additives, ensures UV Resistance.

HEAT INSULATION

Low thermal conductivity reduces loss of energy.

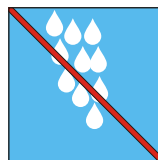

SOUND INSULATION

Multi chambered profile with TPE Gaskets cuts out sound.

LOW MAINTENANCE

Mild detergent cleansing will preserve, pristine look.

WATER RESISTANT

Water drainage channel & TPE gasket prevents water penetration.

CORROSION RESISTANT

Profile resistant to Marine & Tropical climate.

LOW THERMAL EXPANSION

UPVC Profiles can withstand extreme temperature 0° - 50°C.

FIRE RETARDANT

Self Extinguishing conforms to British & DIN standards.

ECO-FRIENDLY

UPVC profiles are 100% recyclable.

CHEMICAL RESISTANT

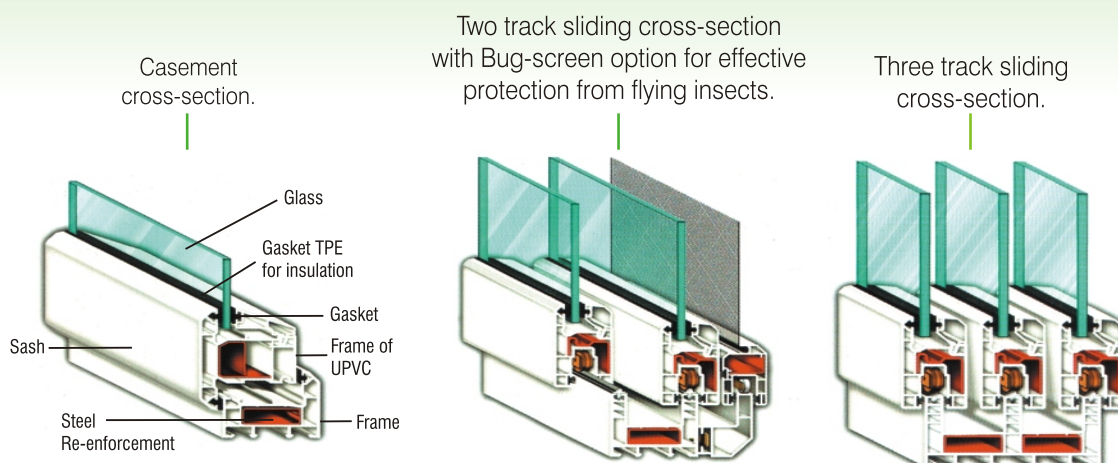

UPVC Profiles resistant to Acids and Alkali.

IMPACT RESISTANT

Impact modifiers ensures strength & durability.

Design Features

- Multi-chambered profiles that ensures isolated drainage.
- Profiles have an outer wall thickness upto 3 mm for optimum structural strength.
- Purpose designed galvanized steel reinforcements that make the profiles rigid.
- Welded corners that ensure squareness, structural strength and smooth opening of windows.
- Concealed locking wedges that provide additional safety.
- Custom made run up blocks that enable convenient closing of windows.
- Twin weather sealing that provides optimal resistance to drought and water penetration.
- Incorporates high thermal and acoustic insulation.

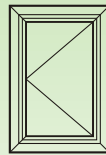

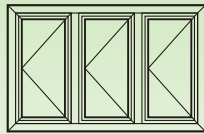

Advantage

Properties	Steel	Aluminium	Wood	UPVC
Installations	Poor	Fair	Fair	Easy & Excellent
Maintenance	Painting	Powder Coating	Painting / Polishing	No Painting Required
Aesthetics	Poor	Poor	Good	Modern & Elegant
Durability	Fair	Fair	Warpage / Shrinkage	Excellent Long Life
Thermal Conductivity	High	High	Fair	Zero Conductivity
Sound	Poor	Poor	Poor	Sound Proof
Chemical Resistant	Corrodes	Corrodes	Rots	No Effect
Cost	Fair	Fair	Expensive	Affordable in Long Term
Safety	Good	Fair	Poor	Excellent
Strength	Good	Fair	Good	Reinforcement available due to multi-chambers
